

VACANCY: **Electrical Technician -** **Life Safety & Security**

A vacancy exists for a highly engaged person to fill the post of **Electrical Technician** in our **Life Safety & Security Department**. This department is responsible for the design, supply, installation, and maintenance of systems for commercial, industrial, and residential customers. These systems comprise security, fire detection, fire suppression, access control, data communication and CCTV.

Main responsibilities include:

- To install, maintain, and repair fire alarm, fire suppression, CCTV, and security systems.
- To perform system upgrades and replace devices when necessary.
- To diagnose causes of fire alarm, fire suppression, CCTV and security problems or failures for the purpose of effecting equipment and/or systems repair.
- To troubleshoot fire alarm, fire suppression, CCTV and security systems using appropriate test equipment and tools.
- To test and inspect fire alarm, fire suppression, CCTV and security systems to evaluate conditions, identify any necessary repairs or recommend preventative maintenance.
- To assess site, operating conditions and suitability of the equipment compared to specification.
- To determine requirements for customer installations.

- To liaise with customers to ascertain their needs; provide feedback to the customer on their issue and the suggested solution.

The ideal candidate should possess:

- A Certificate/Diploma in Electrical Installation or Electronics.
- Demonstrated electrical knowledge
- Excellent customer service and effective communication skills.
- Ability to work independently with minimal supervision.
- Customer-oriented attitude and the ability to promote harmonious relations.
- Knowledge of fire safety codes.
- Experience with fire alarm, fire suppression, CCTV and security systems.
- A valid driver's licence.

Salary and benefits will be commensurate with qualifications and experience. All applications should be submitted by **January 15, 2024, and should be addressed to:**

**The Human Resources Manager,
TMR Sales & Service Ltd,
P.O. Box 1266, Bridgetown BB11000**
